SCHOOL OF CYBER SECURITY

POST GRADUATE DIPLOMA IN TECHNOLOGY & LAW

Vice Chancellor's Message

Maharashtra National Law University Mumbai as one of the Premier Law Institutions in India requires no introduction today as it has already made its own space in the field of legal education. The University established in the year 2014 by the Government of Maharashtra with the objective of imparting specialised and systematic instruction, training and research in law has grown as one the premier institutions of excellence in legal education located in the economic capital of India. MNLU Mumbai has developed an exemplary professional and academic environment compatible with any other institution in the world.

The University offers B.A.LL.B. (Hons.) five years integrated program and one-year LL.M. program in Constitutional Law, Criminal laws, Corporate and Commercial Laws and Maritime law. From the Academic Year 2020, the University has also introduced M.A in Mediation to acquaint students with the modern processes of Law. Cognizant of this changing paradigm of learning, MNLU Mumbai has signed MoUs with some leading Universities and premier Institutions in India and abroad for a more sustained and engaged exchanges of ideas related to law and allied subjects and society in modern times. The University has introduced a novel programme like Diploma in Fashion Law, PG Diploma in Crime Investigation, Medical Jurisprudence and Forensics, Litigation Lawyering and Law Firm Management, LL.M programme in Investment and Security Laws etc. MNLU Mumbai is also introducing various new degrees and P.G. Diploma Programmes to broaden the academic and placement horizons for the students.

Programme of PG Diploma in Technology and Law offered in collaboration with Aegis Institute of Data Security is first of its kind and aims to provide understanding of upcoming technologies and its interference with law. It aims to generate human resource to serve the promising sector of legal technology. I wish Course director, coordinators of the programme all success in their endeavour to conduct the Programme.

Prof. (Dr.) Dilip Ukey

Vice Chancellor, Maharashtra National Law University Mumbai

Dean's Message

" Technology law is perhaps the hottest, most in-demand branch of the legal profession today. Comprehensive appreciation of technology ensures a fair and competitive society's biggest questions, such as data science, robotics and artificial intelligence. Technology law also focuses on intellectual property rights, a complex branch of the legal system that deals with disputes over who 'owns' intangible 'property', such as creative works, patents, copyrights, and trade secrets. Technology law helps protect the creatives who come up with these ideas and also ensures rights concerning the distribution of their work. There are lots of career opportunities for anyone with a degree in technology law, Studying technology law is a great option for anyone looking to build an interesting, varied, and well-paid career. It's also one of the fastest-growing areas of the legal profession and is set to play a fundamental role in what the future will look like. So if you want to have your say, get enrolled in a program before the start of the next academic year. "

Dr. Abhijit Gangopadhyay
Dean, Aegis School of Data Science

About the Programme

Pace at which technology is transforming World including itself is unprecedented. COVID Pandemic has prepared us for technology driven contact less tomorrow. New Technologies like Artificial Intelligence and Machine Learning, Robotic Process Automation (RPA), Edge Computing, Quantum Computing, Virtual Reality and Augmented Reality, Block chain, Internet of Things (IoT), 5G, Cyber Security, legal technology has made older technology almost obsolete. This is the right time to learn, unlearn and re learn new technology otherwise one will soon find itself redundant. One who is looking for job opportunity, career prospects, startup, upgrade, entrepreneurial initiative for him/her learning itself won't suffice unless he/she knows which sector, firms, and companies require/hire new technology literate human resource. So strong industry exposure is exigent. Learning programme also needs to be innovative in approach, flexible learning hours, practical and job oriented. There is Rule of Law hence law determines the way these technologies are to be applied and practiced. In most of the dispute's technology is somehow involved in form of phone call, CCTV footages etc. The evidence needs to be proved in the courts of law. This can be done only by tech-literate. Tech firms need to do compliances, seek advices to be on the right side of law. Knowledge of Law is sine quo non. Considering all above this programme has been customized and tailor made to the requirements of the industry and profession. The programme will also enhance career prospects in the legal profession, in regulatory bodies at the international and domestic level, third sector organisations and within media, IT and creative industries, legal technology firms. The programme will include core technology courses and elective law courses and is delivered by Maharashtra National Law University Mumbai in collaboration with Aegis Marketed by mUniCampus.

Candidates for admission will be selected on the basis of percentage secured in graduation. The merit cut-off list will accordingly be prepared for admission

About the University

Maharashtra National Law University Mumbai, established under the Maharashtra National Law University Act 2014 is one of the premier National Law Universities in India. The Act envisaged to establish National Law University in Maharashtra to impart advanced legal education and promote society oriented research in legal studies for the advancement of societal life of the people in the country. The prime goal of the University is to disseminate advance legal knowledge and processes of law amongst the students and impart in them the skills of advocacy, legal services, law reforms and make them aware and capable to utilize these instruments for social transformation and development. MNLU Mumbai believes in the values enshrined in the Indian Constitution viz. Justice, Liberty, Equality, Fraternity, Secularism, Humanism etc. and makes all out efforts to inculcate them amongst its students, staff, and others to make this institution as not only center of legal knowledge but also an inclusive center of humanity.

The University offers BA.,LL.B.(Hons.) five years integrated program and one year LL.M. program in Corporate and Commercial Laws, LL.M. (Investment and Securities Laws), M.A. in Mediation, Ph.D Programme and planning to add more programme from new academic year. The course structures of the University are framed by a team of dedicated and committed teachers with guidance from industry experts and academicians.

Hon'ble Mr. Justice D Y Chandrachud, judge of the Supreme Court of India is the Chancellor of the University who not only guides but also inspires the institution with his novel ideas and rich experience in law field. Prof.(Dr.) Dilip Ukey, Hon'ble Vice Chancellor of the University an eminent scholar in the field of law and is guiding and leading the University to achieve newer heights. Prof. (Dr) Anil Variath Registrar of the University with his dynamic vision coupled with excellent administrative skills is enabling university to make newer strides in the field of legal education.

About Aegis School of Data Science

Aegis School of Data Science is run by Aegis Knowledge Trust. Aegis is the first institution in India to offer one year Masters in Telecommunication Management (MPTM) which is commonly known as MS in Telecom Management and MBA in Telecom Management. In the following years, Aegis established itself as a leading school in telecom management and shifted its campus to Mumbai, the economic nerve center of India. Witnessing the success of Industry-academic alliance in 2015 Aegis and IBM collaborated to launch, India's first true Data Science Program known as Post Graduate Program in Data Science, Business Analytics and Big Data. Also PGP in Cyber Security. These programs are jointly certified and delivered by Aegis association with IBM.
