ABOUT MNLU MUMBAI

MNLU Mumbai is one of the premier National Law Universities located in Mumbai, the economic capital of India. It offers graduate, post-graduate, and research degrees in law and allied disciplines. The object of the university is to advance and disseminate learning and knowledge of the law and legal processes and their role in national development, to serve society in the field of law by developing skills in regard to advocacy, legal services, legislation, law reforms, and the like; to organize lectures, seminars, symposia and conferences to promote efficient instruments of social development. MNLU Mumbai has set up a Centre for Research in IP among sixteen centers for legal research. Department for the Promotion of Industry & Internal Trade (DPIIT), Ministry of Commerce and Industry, Govt. of India has also established IPR Chair in the University to advance these objects.

ABOUT THE COURSE

This Certificate Course is a specialized course that explores the dynamic relationship between copyright law, technological innovation, and creative expression in the digital era. Rapid advancements in technologies such as Artificial Intelligence, social media platforms, digital content distribution systems, and open-source models have transformed the manner in which creative works are produced, disseminated, and consumed, giving rise to novel legal and policy challenges. The course provides participants with an understanding of contemporary copyright issues through expert-led sessions covering the fundamentals of copyright, AI and copyright, personality rights and copyright, copyright versus copyleft, and copyright challenges in the social media ecosystem.

The programme is ideal for students, academicians, researchers, legal practitioners, intellectual property professionals, content creators, entrepreneurs, media professionals, and technology enthusiasts. Upon completion, participants will gain valuable insights into emerging developments in copyright law and the legal challenges arising at the intersection of creativity, technology, and innovation.
