About the Course :-Rigorous, interdisciplinary, discipline-based research is the hallmark of the newly developed Ph.D. Program at MNLU Mumbai (2019). The program is committed to educating research scholars who intend to carry out productive research in the area of Constitutional, Corporate, Civil, Criminal, Human Rights, etc. that characterize increasingly challenging problems across national and international domains.

We, at MNLU Mumbai believe in the importance of diversity in our department and the research fields we work in. We aim to create and foster a collaborative environment within the department where everyone feels welcomed. We encourage applicants of all backgrounds and ages to apply in this program, in particular women, disabled, BAME and LGBTQIA+ candidates. MNLU Mumbai is committed to equality, diversity and inclusion.

Keeping the above view, this year's Pre-Ph.D. coursework has been designed to cater the needs of the second batch of Ph.D. candidates with the aim of conducting theoretical as well as activity based learning.

ONE WEEK WORKSHOP ON RESEARCH METHODOLOGY 20.06.2022 TO 26.06.2022

Level of Participation:

The participants shall be Ph.D. scholars/candidates admitted this year for the program along with 20 outside research scholars/academicians. In total approx.30 participants shall avail this benefit of understanding legal research with Software usage from few of the best experts in the field of research. This coursework cum workshop will be advantageous not only to the new scholars but also for academicians pursuing their doctorate.

The proposed training interaction is geared to achieve the following objectives:

1. To familiarize the participants about the construction and application of research methodology linking it with the formulation of a comprehensive research proposal.
2. To highlight the prevailing trends in computer applications in legal research.
3. To develop the skill among the participants to use SPSS/MS Excel/Statistical/ software for data analysis in socio-legal research.
4. To use other software in data analysis and presentation.
5. To apprise the participants about use of statistical techniques in data analysis through software.
6. To apprise the participants about the e-learning in legal spheres, use of selected legal database and other online information useful in the conduct of research
7. To expose the participants to jurimetrics and recent initiatives in E-court initiatives.
8. To develop the skills of preparation of research proposals encompassing all the phases of a research exercise.

Focal Themes: Following are some of the areas likely to be focused in this programme:

- Research Methodology- Assessing the needs in socio-legal spheres
- Developing Research Proposals: Concepts and Skills
- Methodological Innovations in doctrinal and non-doctrinal Legal Research
- Legal Impact analysis
- Evaluation studies in legal spheres
- Case Analysis Method
- Content Analysis for Legal Research
- Quantitative and Qualitative Applications in -Legal research
- Software in legal research practice.
- Developing data analysis plan for computerization
- Use of parametric and non-parametric Statistics in data analysis
- Use of graphics and diagrams in data analysis.
- Basic skill for searching socio-legal information
- Presentations of assignments on Research proposals prepared by the participants

Duration

In view of the types of inputs to be covered in this workshop, the duration of a week would be sufficient.
